DON'T MISS THIS INSPIRING PROGRAM!

LOVING YOUR WAY OUT OF POVERTY:

Joe Urcavich, Retired Chaplain Green Bay Packers

What gives people of all social economic groups energy and life? It is the experience of someone letting them know, up close and personal that they are worth it, even lovable. The poverty that overwhelms all other forms of deprivation is in people not loving themselves. A performance based society deals with externals; true investment in the poor begins with issues of the heart.

This informational event will update you on the work of Project Promise and leave you motivated, inspired and invigorated. Joe served as the senior pastor of Green Bay Community Church for 26 years and spent 9 of those years inspiring members of the Green Bay Packers football team while serving as their chaplain. He is currently living in Memphis with his family where he spends his time golfing, traveling and visiting with his family in addition to public speaking.
